FAQ's

Can I bring my homework?

Yes. You will have some time to work on or get help with homework, and some time to study or get a lesson.

Isn't it better to have a private tutor?

We design our classes to give you the best of both worlds; you **do** receive one-on-one instruction at each session. But one-on-one isn't always the best way to learn. We offer the other ingredients for a great learning environment: talented teachers, engaging lessons and the energy of a supportive group.
